Why Meana Raptor NFTs Are Different – Full Comparison

Feature	Meana Raptor NFTs	Typical NFT Projects
Real-World Utility	Discounts, golf access, merch perks	Mostly speculative art
Physical Activation	Accepted at park, events, and lounge	Rarely tied to real venues
Revenue Sharing	Boosted APR, MRT burns from park profit	Rare or non-existent
Token-Gated Benefits	Unlock staking tiers, VR zones, exclusive merch	Limited Discord-based roles
Education & Lore	Tied to weekly YouTube episodes and quests	No ongoing content/lore
Game Integration	VR golf, metaverse tournaments, P2E features	Few if any interactive uses
Supply Strategy	Fixed at 10,000, deflationary with burn use	Often inflate or offer no scarcity

Meana Raptor NFTs bridge the gap between digital ownership and real-world value, with immersive, gamified, and story-driven applications.

MEANA RAPTOR PARK (PHYSICAL & DIGITAL)

- Golf Simulators, Mini Golf, AR/VR Golf Arena
- NFT-gated events & crypto-only perks
- Web3 Education Lounge + EV Charging Stations

Why EV Charging Matters:

Our park will include EV charging stations to support sustainability and convenience. While charging their vehicles, guests can enjoy:
